

LA CAJA

PRODUCT CATEGORY: ACCESSORIES

PRODUCT CODE: LACAJA

PRODUCT DESCRIPTION

La Caja (pronounced "la ca-ha") is a hard, molded plastic carry case with wheels, shaped and developed to transport a 10' x 10' canopy more easily. Grip the soft handle to push or pull La Caja as it smoothly maneuvers through narrow paths. Its rectangle shape and inset wheels make it easy to stack or pack, fitting in spaces a rounded hard case won't. The two-piece box has luggage straps with clip buckle ends that wrap around the closed case and lock in place, secured in the harness slots.

INSIDE DIMENSIONS	64"2 x 16.5 "H x 10"D
-------------------	-----------------------

OUTSIDE DIMENSIONS	67"W x 18"H x 11.5"D
--------------------	----------------------

CONSTRUCTION
